- This is not a Long Term Care insurance policy.
- This is not a Major Medical policy.
- This policy may not cover all of your medical or health care expenses.
- This policy should not be purchased as a supplement to Medicare or Medicare related health plans.

## Payment modes

You have a choice among several payment options or modes for paying your premium (annual, semi-annual, quarterly and monthly bank draft). Each payment mode, other than annual and monthly bank draft, results in higher total yearly premium costs. Reasons for higher costs include added collection and administrative costs, time value of money considerations and lapse rates.

The annual and monthly bank draft modes have the same total yearly premium costs. As a result, there is a time value of money advantage to you for paying monthly versus annually. However, there may be other advantages to you for choosing an annual payment based on your preferences. Your agent can explain the differences in modes and help you decide which is best for you. You have the right to change your payment mode, among the modes available, during the life of your policy.

### Modal factor

Annual	= Annual x 1
Semi-Annual	= Annual x .52
Quarterly	= Annual x .265
Monthly	= Annual x 1/12

## Renewability

We guarantee to renew this policy during your lifetime as long as the renewal premiums are paid on time, either in advance or during the grace period. The premium rates may change. A change will apply to all contracts with the same form number, and by underwriting class, which are in force in the state in which you live. A change will apply on the next premium due date after notification. Such advance notice will equal or exceed the requirements in your state. Each premium will be computed by the age as shown in the application.

## Pre-existing conditions

Your policy covers pre-existing conditions after it has been in-force for six months. A pre-existing condition means the existence of symptoms that would cause an ordinarily prudent person to seek diagnosis, care or treatment within a six month period preceding the date of the application; or a condition for which advice or treatment was recommended by or received from a physician within a six (6) month period preceding the date of the application. The policy covers all other conditions that begin after the date it is issued.

## Producer compensation

When you purchase insurance from us, we pay compensation to the licensed agent, who represents us for such limited purposes as taking your insurance application, collecting your initial premiums and delivering your policy, and to any intermediaries through which the licensed agent works. This compensation may include commissions when a policy is purchased or renewed, and fees for marketing and administrative services and educational opportunities. The compensation may vary by the type of insurance purchased, or the particular features included with your policy. Additionally, some licensed agents and/or their intermediaries may also receive discounts on their own policy premiums and bonuses, and incentive trips or prizes associated with sales contests based on sales criteria, such as the overall sales volume of an agent or intermediary with our Companies, or for the percentage of completed sales. (Generally, this will not be the case for registered variable insurance products or for fixed products sold through banks or broker-dealers.) Intermediaries may also pay compensation directly to the licensed agent. If the licensed insurance agent can sell insurance policies from other insurance carriers, those carriers may pay compensation that differs from ours.
